IOWA BY THE NUMBERS

**393 MILLION
GALLONS**

Iowa's community water systems produce 393 million gallons of water per day.

**105,000
WELLS**

288,000 Iowans drink from Iowa's approximately 105,000 active private wells.

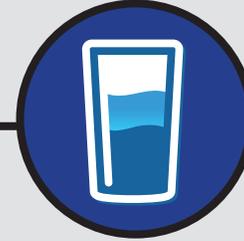

**90%
IOWANS**

More than 90% of Iowans use community water systems, which serve 25 people or more in residential settings.

**\$1.6 BILLION*
NEEDED**

ASCE** estimates that smaller drinking water systems in Iowa need \$1.6 billion by 2035 to update infrastructure.

**93%
SYSTEMS**

93% of Iowa's community water systems are smaller systems, which serve 3,300 people or fewer.

**\$5.9 BILLION
TOTAL**

ASCE estimates that all drinking water systems in Iowa, including private systems, need \$5.9 billion by 2035 to update infrastructure.
